Proposal for Creation of the Low Power FM (LPFM)
Broadcast Service**

FCC RM-9242

To: Federal Communications Commission
Reply-Comments of Geoffrey Esty

With respect to the First Amendment, the FCC should grant amnesty to currently unlicensed community Broadcasters. We the people own the airwaves! There should be a limit to the number of radio stations any one person can own. These stations should be required to provide local content. Community radio deserves more than one watt per station. Therefore, I want RM-9242 adopted as the petition to legalize This kind of broadcast service.
